

CORRECTING ADDRESS ERRORS OR OMISSIONS:

To report errors or omissions please send your name and a valid email address or phone number along with a brief explanation to mmorris@jeffco.mt.gov. If possible use the map identify tool (upper right hand corner) to determine the geocode or parcel id of the location you are referring to.

Be sure you are referring to a map that has "jeffco.mt.gov" somewhere in the address bar. Many entities publish maps of Jefferson County but only the ones hosted on jeffco.mt.gov can be edited by the Jefferson County GIS department. For all other maps please contact the entity that authored it.

Reporting an error does not guarantee that a change will be made to the map. It may take two to four weeks for a submitted error to be reviewed.

PLEASE NOTE:

If you do not include a valid email address or phone number your request will not be reviewed.
